**Prof. Uday Shankar**

Warden, RP Hall of Residence

IIT Kharagpur

**Subject: Application for allotment of Single Room**

Respected Sir,

I, Abhijay Mitra, a Sophomore of the Department of Electrical Engineering, Roll-18IE10001, with a current CGPA of 9.18, was transferred from LBS Hall to RP Hall(Room Allotted- D-143) this year. During my stay at LBS Hall of Residence, sharing my room with two other roommates, I suffered a lot due to my sleeping and anxiety disorders. Whenever, in my sleep, one of my roommates switched on the light, or made the slightest of noises, my sleep would be disrupted which caused me enormous numbers of sleepless nights.

On returning to my hometown Kolkata, after the end semester exams, I started encountering even greater sleep problems than ever before. My body clock became completely irregular which resulted in me not having any specific time or duration for sleep. Later, I got myself checked up by a doctor who mentioned, in his prescription, "needs, less stressful situation for sleep, to control anxiety. Needs good sleep i.e. adequate duration without disturbance".

Under these circumstances, it becomes extremely difficult for me to sleep normally in a triple sharing room. Hence, I pray for a transfer to a Single Room as soon as possible. I shall remain grateful to the authorities if the transfer is made soon. I have also attached the doctor's prescription along with this application.

Sincerely,

---

**Abhijay Mitra**
